(READING SKILL)

Q 1. Read the following passage carefully and answer the questions that follow: (10)

- i. The newspapers have taken the place of the Gita, the Bible and the Quran with the people. For them, the printed sheet is gospel truth. The fact throws a great responsibility on the editors and newswriters.
- ii. Newspapers are a powerful influence. It is the duty of the editors to see that no false report or report likely to excite the public is published in their newspapers. The editors and their assistants have to be extra careful about the news they give and the manner in which they dress it. In a state of independence, it is practically impossible for Governments to control the Press. It is the duty of the public to keep a strict watch on the newspapers and keep them on the right path. An enlightened public would refuse to patronize inflammatory or indecent newspapers.
- iii. Newspapers which indulge in untruth or exaggeration harm the cause they profess to espouse. I admit that there is enough untruth in enough newspapers to warrant action. But my experience is that no amount of public criticism will affect the policy of newspapers which make their livelihood by such policy. But I write this in no way to condone untruths in newspapers. I am quite clear that if newspapers weighed every word that is printed therein, we should have a speedier removal of abuses whether in the states or elsewhere.

Q2. Read the following passage and answer the questions given below. (10)

- i. It is physically impossible for a well-educated intellectual or brave man to make money the chief object of his thoughts: just as it is for him to make his dinner the principal object of his life. So all healthy-minded people like making money, ought to like it. And enjoy the sensation of winning it; but the main object of their life is not money; it is something better than money.
- ii. A good soldier, for instance mainly wishes to do his fighting well. He is glad of his pay-very properly so, and justly grumbles when you keep him ten years without it- still his main notion of life is to win battles, not to be paid for winning them.
- iii. So of the doctors. They like fees no doubt, ought to like them, yet if they are brave and well-educated, the entire object of their lives is not the fees. They, on the whole, desire to cure the sick, and if they are good doctors, and the choice were fairly put to them, they would rather cure their patient, and lose the fee than kill him and get it. And so with all other brave and rightly trained men: their work is first, their fee second — very important no doubt but still second.
- iv. But in every nation, as I said, there are vast numbers of people who are ill-educated, cowardly and more or less stupid And with these people just as certainly the fee is first and the work second.

QUESTIONS:

Subject : Problem of waterlogging in Sector 90

Sir

I am writing to express my concern about the recurring problem of waterlogging in my area during the monsoon season. Every year, the streets and roads are flooded with rainwater, making it difficult for residents to go about their daily lives.

The flooded roads make it difficult for vehicles to pass leading to traffic jams. The stagnant water provides a breeding ground for mosquitoes which can lead to the spread of diseases.

I urge the concerned authorities to take immediate steps to address the waterlogging problem in our area. The existing drainage system needs to be upgraded to increase its capacity to handle heavy rains. All encroachments on drains must be removed to ensure that they can function properly. Rainwater harvesting

	<p>systems can be used to collect and store rainwater, which can then be used for irrigation and other purposes. This will help to reduce the amount of rainwater that flows into the drainage system.</p> <p>I hope that the authorities will take my concerns seriously and take steps to resolve the waterlogging problem in our area.</p> <p>Thank you for your time and consideration.</p> <p>Yours sincerely Swati</p>
